

Upgrade Solution

What is an Electrostat 300A?

The ES300A Electrostat (1020) series was a popular 3 phase analog DC motor speed control manufactured by WER Industrial (later Emerson Industrial Controls) from approximately 1973 to 1983. It could control DC motors from 7 ½ HP to 150HP.

What replaces the ES300A?

We regularly replace ES300A drives with our Quantum III series. Quantum III's are state-of-the-art Digital Drives that offer many more internal features and can be setup using your Laptop PC. Software for the Quantum III (called MentorSoft) is free !

To obtain the software for the Quantum III click
